BPMSport Remote Coding Services Overview

Our coding service is $300 flat rate and includes everything on our coding list other than BMW Internet/Live! Activations. We also offer Sirius, Connected Drive, and BMW Apps Programming. Please contact us with your VIN# if you are interested in those services.

The session also includes complimentary fault code reading and diagnostics of all control units in the car, so we also check to see if there are any hidden existing issues and asses the vehicle's health. For BMW M3, M5, or M6 owners, we also check engine vitals and adaptation data, and provide you with “black box” data indicating the maximum RPM reached, number of times to redline, fastest speed travelled, and other information.

With over ten years of experience with expert BMW software tools, BMW programming, and BMW coding - rest assured you are in good hands. We warranty our work from defects for the life of your vehicle.

The requirements for coding are a PC or MAC laptop and a stable wired or wireless connection where the vehicle is located. The remote session will take roughly an hour to complete.

You will need a coding cable to interface with your vehicle for the session. If you do not currently have one, we have them available for purchase for $125. We always suggest purchasing a coding cable to have on hand, and it allows us to perform remote diagnostics using factory tools in the future if you should ever experience an issue.

Coding Features that are commonly activated on your vehicle are:

**NAV Related**
- **CIC DVD/Media Cradle VIM - DVD Video in Motion** for Both DVD’s in the Player and with TV Shows/Movies loaded on the iPhone while using the media cradle
- **No Accept Screen** - Disable the Navigation “Accept Screen”
- **8 Euro Pre-Sets** - Instead of 6 programmable presets the cluster is set to eight which makes the US AM/FM and Mode buttons presets
- **DSC OFF menu option** – Enable DSC Off as a menu setting for M Drive Settings

**Car Access Related**
- **Key Fob Window Up** - Roll windows up or down with Key Fob or Comfort Access
- **Key Fob Mirror Fold** - Fold Mirrors with Key fob locking or Comfort Access, Automatically retract mirrors when unlocking the car
• **Convertible Top Open/Close** – Open or close the top and windows via the Key Fob

• **Window Finish** - Allow windows to continue roll up or down with door interruption (opening of door)

• **Comfort Exit** - Doors automatically unlock if locked when the ignition is turned off (No more double pull to open the door, **mandatory for e90 owners**)

• **No Seatbelt Gong** – No gong when the driver or the passenger seatbelt is not engaged

**Cluster/Controls Related**

• **Instant MPG** - Actual real-time MPG reading on the cluster, cycles after the toggle of the Average MPG reading

• **Efficient Dynamics Display** - Shows when you should shift up or down for best fuel economy (6MT only)

• **Fuel Reserve Threshold** – Lowered the Fuel Reserve Warning to 1/8th of a tank instead of ¼ (Can be altered in-between as well for example 1/5th of Tank)

• **Blinker Mod** – Increase the number blinker flashes when touching the turn signal to the first unclicked lane change position, Default is 1x or 3x (Triple). Can be increased to 4x or greater

• **Cluster Gong** – stops the gong from indefinitely sounding with key in the ignition

**HVAC Related**

• **Auto Start/Stop Memory** – The Auto Start Stop button will retain and remember it’s last state

**Wiper Related**

• **Wiper Completion** – Windshield Wiper finishes its cycle when the ignition is turned off

**DSC Related**

• **Euro MDM** – Based on the European Profile, M Dynamic mode is less intrusive and aggressive

**Lighting Related**

• **Double Blink Hazards** – Hazard lights will double blink when the ignition is turned on

• **Brake Force Display** – Brakes lights will flash under extreme braking when the ABS is activated

• **Corner LED Delete** – Suppress the amber LED corner lights (and side markers)

• **Brighter Angel Eyes** – Keep the angel eyes at full brightness with headlights on (removes the dimming)

**Please note this is not a complete list and other options may be available upon request.**
**Retrofit Coding**
- LCI LED Taillights
- Factory Alarm
- M-Drive (MDM)
- PDC – Front, Rear or Full
- Race Seats
- Performance Seats
- Other Factory Options

Package deals are available for those interested in purchasing engine or transmission software as well.
