

BPMSport F-Series Remote Coding Services Overview

(Model Coverage includes 2011-2014 5 and 7 Series and 2013-2014 3 and X Series Vehicles)

Our coding service is \$450 flat rate and includes the options listed below.

With over ten years of experience with expert BMW software tools, BMW programming, and BMW coding -- rest assured you are in good hands. We warranty our work from defects for the life of your vehicle.

The requirements for coding are a PC laptop and a stable wired or wireless connection where the vehicle is located. The remote session will take roughly an hour to complete.

You will need a coding cable to interface with your vehicle for the session. If you do not currently have one, we have them available for purchase for \$100.

Coding Features that are commonly activated on your vehicle are:

NAV Related

- **CIC DVD/Media Cradle VIM - DVD Video in Motion** for Both DVD's in the Player and with TV Shows/Movies loaded on the iPhone while using the media cradle
- **No Accept Screen** - Disable the Navigation "Accept Screen"
- **8 Euro Pre-Sets*** - Instead of 6 programmable presets the cluster is set to eight which makes the US AM/FM and Mode buttons presets
- **Real Temperatures and Pressures Display** - Enables an iDrive display which shows actual temperatures and pressures of each individual tire
- **Cameras in Motion!** - Enable the top view, side view, and rear view cameras while in motion.
- **Efficient Dynamics Sport Displays*** - Adds an option in iDrive which has live meters showing horsepower and torque the engine is making, on the fly!
- **Disable Other Disclaimers** - For night vision, park distance control, + cameras
- **Region changing** - All DVD's to play coded with a different region

Car Access Related

- **Key Fob Window Up** - Roll windows up or down with Key Fob or Comfort Access
- **Key Fob Mirror Fold**- Fold Mirrors with Key fob locking or Comfort Access, Automatically retract mirrors when unlocking the car
- **Convertible Top Open/Close*** -Open or close the top and windows via the Key Fob
- **Trunk/Hatch Closing*** - Close the trunk or hatch using your key as well as the button inside the car. No more walking to the rear of the car to close it!
- **Window Finish** - Allow windows to continue roll up or down with door interruption (opening of door)

- **Comfort Exit** - Doors automatically unlock if locked when the ignition is turned off (No more double pull to open the door)
- **Remove Seatbelt Gong** – No gong when the driver or the passenger seatbelt is not engaged

Heads Up Display Related

- **M View*** – Change your heads up display to the BMW M version which displays RPM and gear on your windshield and has a more sporty look
- **Phone Information*** – Readily access your contacts and Bluetooth phone information using the heads up display
- **Entertainment Information*** – Add radio and media/entertainment details
- **Turn Signals*** – Add turn signals and speed limit information

Cluster/Controls Related

- **Digital Speed** – Add a digital speed reading toggle to the instrument cluster
- **Instant MPG** - Actual real-time MPG reading on the cluster, cycles after the toggle of the Average MPG reading
- **Fuel Reserve Threshold** – Lower the Fuel Reserve Warning Level Reminder
- **Cluster Gong** – stops the gong from indefinitely sounding with key in the ignition

HVAC Related

- **Auto Start/Stop Memory** – The Auto Start Stop button will retain and remember its last state. This means it will not automatically default to on.
- **Air Conditioning Memory*** – Remember the AC's last position on ignition on

Wiper Related

- **Wiper Completion** – Windshield Wiper finishes its cycle when the ignition is turned off
- **Headlight Washers** – Turn off the headlight washing system

DSC Related

- **Euro MDM*** – Based on the European Profile, M Dynamic mode is less intrusive and aggressive (Only available on select models)

Lighting Related

- **Welcome Light Changes** – Choose lights and slow or fast fading for welcome lights (on vehicle lock/unlock).
- **Daytime Running Light Changes** – Change which lights are the DRL's
- **Sidemarkers Delete*** – Turn off sidemarkers with headlights on

***Please note:** Options listed are not available on all vehicles. Some options require packages that your vehicle may or may not be equipped with.
